Cardskipper – digital licences

This year is the first year that the Swedish Powerboat Association uses a digital system for licences. The drivers and co-pilots have their license in an app, Cardskipper. The digital licence-card looks exactly like the plastic licence-card from previous years.

I want to inform you that the digital license-card that the driver and/or co-pilot are showing you are the real licence from the Swedish Powerboat Association. A driver who doesn't have a smartphone or doesn't know how one works have a plastic licence-card, but that is only a few exemptions.

Jamie Spörndli

Secretary General

Swedish Powerboat Association
